

I have been a member of the club since 1992 and have seen many members come and go over that period, Providing a varied and interesting programme has always been challenging but we seem to carry on and enjoy our fortnightly get togethers.

I have seen filming and editing on tape disappear into the ethos and the early computers with their 1gb capacity and 56mb ram evolve into the mega computers of today, unfortunately as a club the variety of computers and their editing software is an eclectic bag with no two editing systems the same, this in tern makes it difficult to provide the support you might expect from a club.

To this end we as a committee do try to provide a varied programme for all the members old and new and any suggestions for club nights is always greatly received.

When I took over from John as chairman in September 2020 for my two year term of office global events dictated that it was necessary for us to postpone meetings for a while!!!!

My first year as chairman passed by uneventfully and my second year involved all the interpretation you would expect as we tried to kick start the club back into action.

Once again this past year we have tried to further our filming capabilities as a group by holding some more green screen events and managed to include some real am dram stars. These film nights have provided us with plenty of footage for members to edit and experience in film making as a group.

The competitions were generally well supported this year with almost 75% of club members submitting films for the Ron Palmer Cup .

As I enter my unprecedented third year as chairman I would like to thank Mike for his support as vice chairman Karen as Secretary and Treasurer and John and Maurice as committee members.
